

# ROBLOX BOOTSTRAP WEB

MIGUEL CANO SANTANA 1ºDAM

Github  
Repository

<https://github.com/miguelcanosantana/RobloxWebPage>

Website made with a Roblox Theme using latest Bootstrap Version (v4.4.1)

The Web is uploaded to Github Pages service.

## PARTS OF THE PAGE

- › Head: Has the link to the Bootstrap CSS sheet and JavaScript.  
Also contains the custom styles sheets and fonts.
- › Header: Contains a Bootstrap Navbar with an Acrylic Background.
- › Sections: Contains the sections of the page:
  - ❖ **Home:** An Expanded Jumbotron to be seen as a Hero Section.  
Background by Roblox.com
  - ❖ **What is Roblox:** A brief section about Roblox. Using Columns and Rows. Image by Roblox.com
  - ❖ **Roblox History:** A section using Rows and columns that shows some history of Roblox, using Bootstrap embeds.
  - ❖ **Highlighted Projects:** Contains some Bootstrap elements like Cards, Carousels and embeds inside them, showing some projects made by people that I personally like.
  - ❖ **My avatar:** Section that contains a Jumbotron with my avatar as showed on the website. Avatar updates in real time.
- › Footer: Contains Form, GMaps embed and a modal windows.
